## **Cherry Tree Nursery, Northbourne Sheltered Work Opportunities Project**

I have known the Cherry Tree Nursery for more than ten years and I can clearly recall the impact this wonderful set-up had on me when I first came here while reporting for the BBC. Jessica Davies and her team perform – literally – miracles for the many clients who find refuge in the comfort and reassurance that the Nursery provides.

This is an excellent cause to donate to as mental illness has no barriers and could affect any one of us at any time. So I ask you humbly to give what you can to enable the charity to continue with its building programme.

**Richard Drax MP**
